Theme of the KOOV Challenge 2021

The Future City

—Let's think of a convenient and fun future life

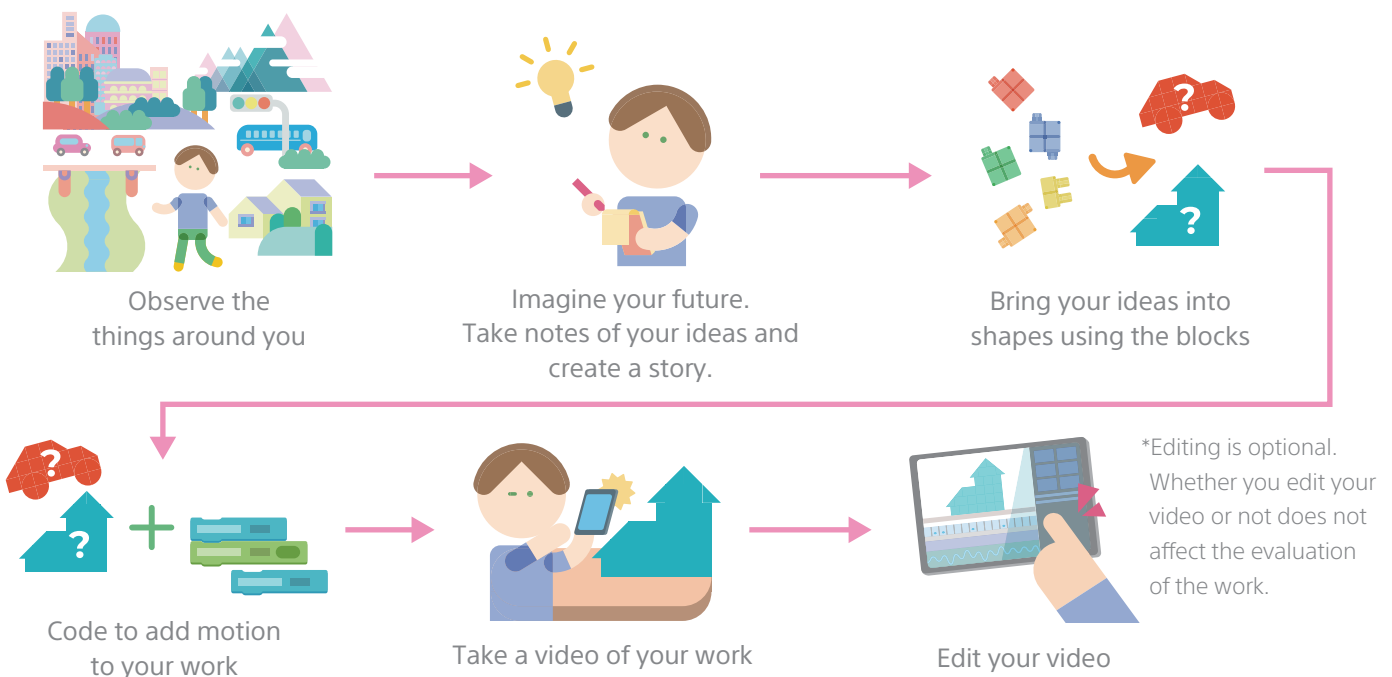

Create a building or vehicle with KOOV that you wish to have in your city in the future.

Observe the things around you or imagine what your future life will be like to get different ideas.

If you feel it's a little hard, then you can also create something to demonstrate what's nice about your city. When you submit your work, try to come up with a story that will attract the visitors of your city.

Production Tips

There are no rules on how you work on your project, but here are some tips you can use for a smooth creation.
